Catch the Mission Bug!

Recently, as a result of participating on a mission trip this summer, several persons have shared how they have been stung by the Missions Bug! After coming off of the trip, they have expressed to us how they now see the world differently. There is a strong desire to serve others and a larger awareness of God's presence and the world's needs. Though we have known a great deal about the Missions Bug and how its effects can be contagious, we believe there is a need for others to experience the bite of this pesky creature.

In an effort to share more about how to catch the Missions Bug, we are inviting everyone at Grace Church to a Special Missions Evening on Saturday, Sept. 18th, at 5:30 p.m. All three teams that went on mission trips this summer will be presenting information and how they were stung by the infamous bug in Alaska, New Orleans, and Guatemala. It will be an evening of fun, growth, and future envisioning on how we all may find ways of reaching out to a world in need. Catching the Missions Bug will be an evening of celebration.

To be sure, we hope you and your family will be able to join us. Not only will there be food from the respective regions, but there will also be plenty of pictures on the big screen along with testimonies and witness. To see how God is working through Christ's servants is always exciting and hopeful.

Those who have been bitten by the Missions Bug will surely want to attend this special gathering. Those who want to see how contagious the Missions Bug is will want to come too.

As those who have been bitten in the past, we know the feeling of catching Mission Bug spirit, and we know how great it is to see so many involved. This is only a beginning. And we can only pray more will catch it soon!

News from the Music Dept..**We Need You**

POSITIONS OPEN - Soprano, alto, tenor, and bass. No other need apply.

PHYSICAL QUALIFICATIONS - Must be able to carry light musical notes part way across the sanctuary. Must have sufficient vision to see the director. Must have a sense of humor to work with other somewhat weird people.

EXPERIENCE - No application will be accepted from persons who have not sung, hummed, or whistled in the tub or shower at some time.

BEGINNING WAGES - SOCIAL SECURITY - We promise you the security of social fellowship with other choir members. Singing in the church has many benefits: There is fellowship and opportunity to emote (see Dewey Findley), to feel the music, to express oneself (see Cheryl Bixler), or to be a part of something beautiful, or that very special part of something holy. **MEDICAL BENEFITS** - Choir participation is an excellent way to cope with stress. Laughter promotes healthier living and helps the body fight off diseases. That's why choir members are so healthy.

RETIREMENT - Generally determined by printed notes getting too small (glasses may be borrowed from other choir members), the hymnal too heavy, notes too high or low, sanctuary too hot or cold, or the organist and pianist unable to play the notes you sing.

HOURS - Choir: Sunday morning from 8:30 until 10:00 a.m. and Wednesday rehearsals from 7:00 - 8:30 p.m. Rehearsals begin September 1st. Hope to see you there!

Becknell Bells will begin practices on Wednesday, Sept. 1st. at 6:00 p.m.

Praise Team will begin practices on Tuesday, Sept. 7th at 6:00 p.m.

A Note From Pastor Jenothy

Hundreds of preschoolers and kindergarten students across the country will spend these first few months of school learning and reviewing one of the most basic and fundamental skills they will ever know...the English alphabet. I recently came across an “alphabet” I had never seen or heard of before. One that helps the **heart** of it's reader perhaps more than the mind.

Healthcare Ministry

Page 13

HEALTHCARE MINISTRY MINUTE

"Dear friend, I pray that you may enjoy good health and that all may go well with you."
3 John 1:2

FINANCIAL STRESS AND YOUR HEALTH

We've heard a lot about how poor health can create financial stress. But we hear less about the impact of financial stress on health. Financial stressors such as job insecurity, job loss and home foreclosure can increase the body's level of stress hormones. Over time, these stress hormones can have a significant impact on our health. They may raise the risk of heart disease and atherosclerosis (hardening and blockages of the arteries) as well as contribute to anxiety, depression and reduced immunity.

To help reduce the impact of financial stress:

Get at least 30 minutes of physical activity every day.

Seek out the social support of friends and family.

Get 7-8 hours of sleep every night.

Eat plenty of fruits and vegetables, and avoid fatty foods, especially foods high in trans fats and saturated fats (e.g., fatty meats, chicken with the skin, French fries).

If you're feeling blue or down, get help from your doctor or a mental health professional.

Keep up with disease prevention such as immunizations, dental care, blood pressure testing, and screenings for colorectal cancer (stool test for blood), prostate, breast and cervical cancer.

While these steps may not eliminate financial stress they may help reduce its negative impact on your health.
